

Please insert here at least one **PHOTO** of your traineeship stay abroad! Preferred motives are photos of your accommodation, of your work place, of being at work. Attention! Due to legal considerations we kindly ask you to send us only photos that have been taken by yourself!

## STUDENT DETAILS

University department / faculty: **FVST**  
Field of study: **M.Sc. in Process,Safety and Environmental Engineering**  
Home university: **Otto-von-Guericke-Universität Magdeburg**  
Nationality: **Indian**  
Duration of traineeship (from ...to...): **01.03.2018 -08.07.2019**

## TRAINEESHIP INSTITUTION

Country: **Czech Republic**  
Name of traineeship institution: **University of chemistry and technology,prague**  
Web page: **<https://www.vscht.cz/?jazyk=en>**  
Address: **A, Technická 5, Dejvice, 166 28 Praha 6 - Dejvice-Praha 6**  
Contact person: **Dr. Ing. Vlastimil Fíla**  
Telephone / E-Mail: **220 444 018/Vlastimil.Fila@vscht.cz**

## **EXPERIENCE REPORT** (approx. 3 pages + more photos if applicable)

### **1) Traineeship institution**

*Please give a brief description of your host traineeship institution.*

It is university with several departments of chemical, food and its subbranches. It is specialised institute in chemical field.

### **2) Searching for a traineeship**

*How did you find your traineeship? Are there any recommendable links or other helpful tips you would like to share?*

I applied to the professor of my subject during Erasmus Semester in the same institute

### **3) Preparation**

*How did you prepare for your traineeship in terms of language, intercultural, professional and organisational aspects? Are there any recommendable links or other helpful tips you would like to share?*

I had studied subject relevant to my traineeship in my home university. I think it's really helpful to do internship in this institute if you are interested in chemistry and its specialisation. The ESN group of this university is really active and organises a lot of events like cultural evening, trips.

### **4) Accommodation**

*How did you find your accommodation? Are there any recommendable links or other helpful tips you would like to share?*

I was staying in dormitory of another university because the dormitory of this university is really far from school. I applied externally in their system and got offer via mail. I applied in Iskam which is chain of dormitories of CVUT university just backside to school. They have 6-7 different dormitories in that chain.

### **5) Traineeship**

*Please describe the tasks and / or the projects carried out during your traineeship. In which way were you mentored and integrated? How were the working conditions? Did you have especially positive or negative experiences?*

I worked on preparation of mixed matrix membranes using filler ZIF 8 and GO for separation of Carbon dioxide and methane. I was mentored by PhD student who was working with my supervisor. My working conditions were good. It was positive experience. I will also be publishing research paper based on my traineeship project.

### **6) Acquired qualifications**

*Which qualifications and skills could you acquire or improve during your traineeship?*

I learned a lot in terms of preparation strategies of membranes and its application using instrumentation

### **7) Country-specific features**

*Are there any specific traineeship regulations in the target country that affected you as an Erasmus trainee (e.g. France: housing allowance, convention de stage)? If yes, which ones? Are there any recommendable links or other helpful tips you would like to share?*

No

## 8) Visa, residence and work permit (only for international students)

*Which prearrangements had to be made in terms of visa, residence and work permit? Are there any recommendable links or other helpful tips you would like to share?*

I need to take visa from czech embassy in berlin before my departure from Germany. I need to take appointment and submit all documents along with health insurance of czech republic. I took Ergo health insurance. Usually it takes 30-60 days to get your visa from embassy. Here is link to that [https://www.mzv.cz/jnp/en/diplomatic\\_missions/czech\\_missions\\_abroad/germany\\_embassy\\_of\\_the\\_czech\\_republic\\_in.html](https://www.mzv.cz/jnp/en/diplomatic_missions/czech_missions_abroad/germany_embassy_of_the_czech_republic_in.html) . You need to go there again to collect it.

In case of extension in traineeship you can extend your visa from office in prague. International coordinator helps you for that. For extension of visa in prague you need to either speak czech or take someone who knows czech. I applied externally for residence through iskam login. I stayed in Masarykova dormitory which is just next to UCT. Work permit is not allowed because of Internship status.

## 9) Other

*Is there anything else you want to let other students know?*

I would recommend to attend all events and if possible to stay in university dormitory because all events carried out there. If you are also looking for job opportunities in czech republic then I would recommend to learn Czech language as its really necessary for technical jobs.

## 10) Conclusion

*What is the conclusion drawn after your traineeship experience abroad?*

My Experience was really awesome. I learnt alot in terms of Lab work, leadership,team working and sports. I enjoyed prague alot. Its nice city with alot of international exposure to learn new things.
